

**HL-DRL-LED-06 9-32v 6w Round Style LED Daytime Running Light
LED DRL For Car & Trucks**

Product Features:

1. 9-32V DC wide voltage design, suitable for 12v and 24v cars & trucks
2. With high temperature resistant, high brightness, long life-span LEDs
3. Excellent IP44 waterproof function
4. Strong EMC function, deduct the disturbance to car computer system
5. Lighting automatically, turning on while starting the engine, turning off while close it
6. LED DRLs will turn into dim while the headlamps turned on
7. There is a warning signal while opening or closing lock, opening and closing door
8. Synchronization function with turning light and warning light, improve warning effect, more safer when driving
9. Delay closing light, convenient for leaving
10. Suitable for common cathode and common anode car installation
11. Conformation of ECER87 standard

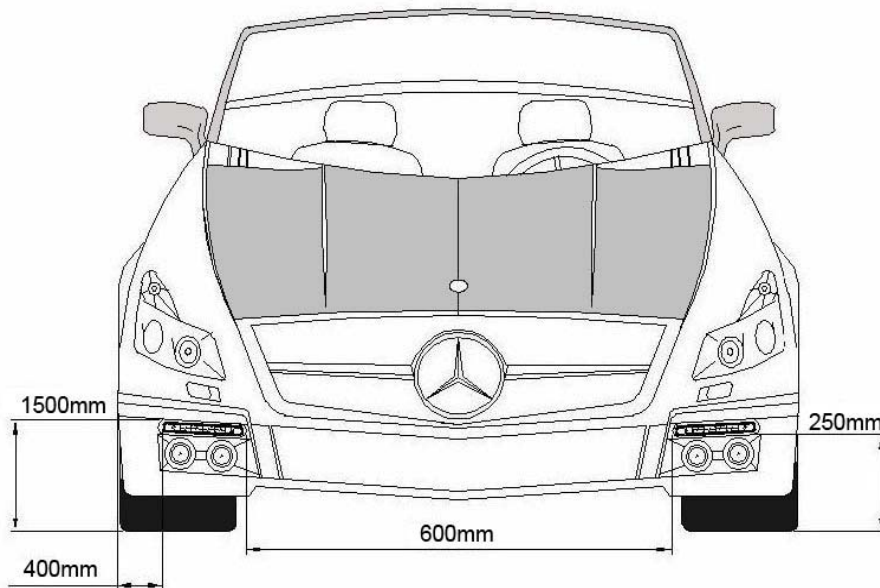

Technical Parameters:

1. Working voltage: DC9-32V
2. Power output: 2 x 6W
3. Lumens: 800lm
4. Working temperature: -40°C~+85°C
5. Color temperature: 6000K±1000K

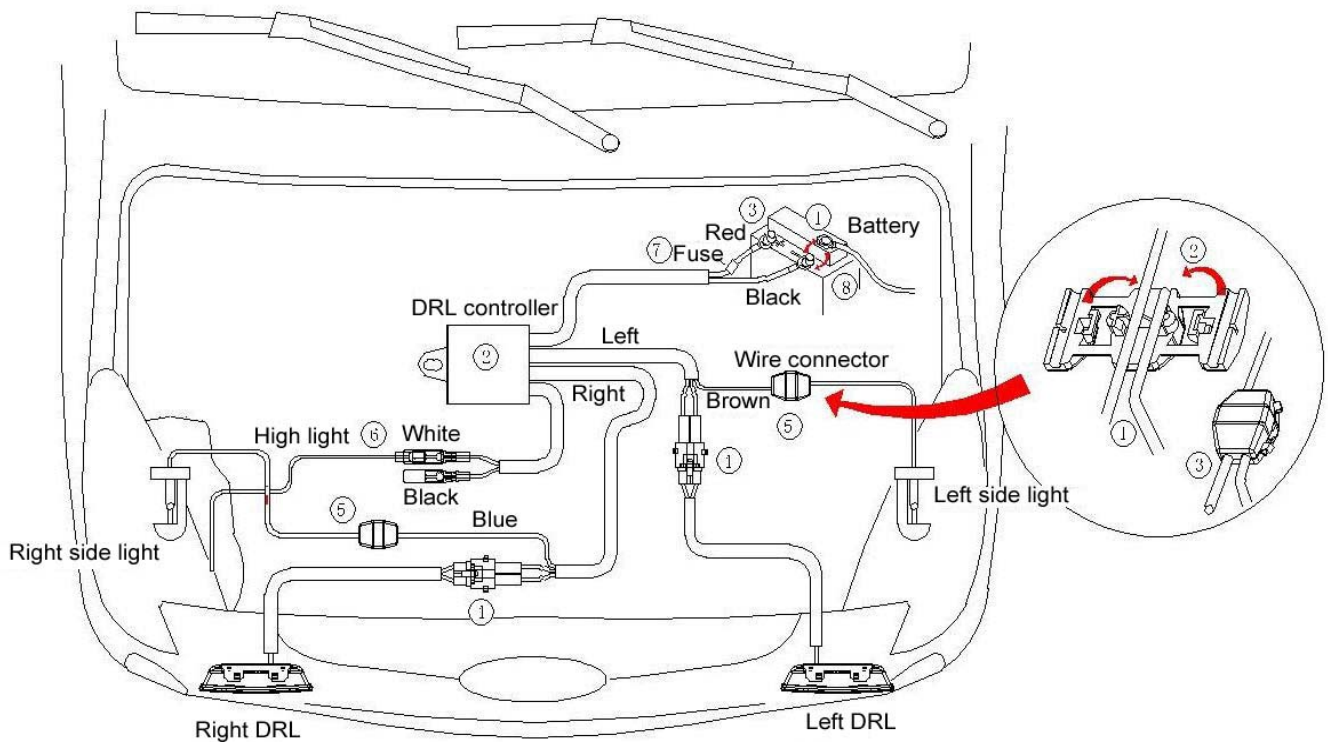

Content:

1. 2 * LED lights (left light – L, right light – R)
2. 1 * wire harness
3. 2 * brackets
4. 4 * screws
5. 1 set M6*16mm nuts
6. 4 * 20 nylon bandages
7. 3 * taps
8. 1 * neutral gift box packing
9. 1 * product manual
